“ FEEDBACK AND COMMENTS

- The competitive environment at SSCBS offers many learning opportunities and it is this environment that fosters creative growth among students. Teachers as well as students play a vital role in maintaining this environment and this is what makes SSCBS truly distinctive from any other undergrad college.
- This institution is a great place for holistic growth of an individual. Further improvements can be made through improvement of PR of college and via alumni relationships. Further, the number of societies can be reduced, and more rigorous evaluation must be done for them to ensure better efficiency. More sports opportunities and resources must be presented for all-round development of students. Resources such as laptops and books must be made available to economically weaker students and more awareness must be created for the same. More opportunities and encouragement must be provided for research work and projects. More industry tie-ups can be explored to supplement classroom learning.
- The teaching faculty is extremely good. The syllabus at times gets very theoretical and given that it's a professional course, more of practical aspects need to be added to the curriculum.
- College was great at providing necessary aids and differentiated itself from other DU colleges which is what makes SSCBS great
