More than 97% of them felt that recognition and administrative support gave them motivation to carry out research activities as well as participate or organize seminars, workshops, conferences. They felt encouraged in providing consultancy services and establishing linkages with industry.

Such efforts should be continued for raising the level of knowledge among teachers in future. Around 75% of them are satisfied with the system of examination and evaluation being followed in the University.

### **ALUMNI FEEDBACK ANALYSIS**

Feedback from alumni was taken through Google forms. Also, informal feedback was taken from them as and when they visited college.

During their academic tenure at college, more than 90% of the alumni believed that the curriculum enhanced critical thinking and problem-solving skills and also helped them in their corporate life.

Most of the Alumni suggested to introduce contemporary add on courses like Digital Marketing, Entrepreneurship etc. It was also suggested that college should encourage a greater level of interaction/involvement of alumni for the benefit of the students. They were

forthcoming in helping college in terms of mentoring students, workshops, seminars placements etc.

### **RECRUITERS' FEEDBACK ANALYSIS**

It was suggested by the recruiters that students did a thorough research of the profile and role that is being offered to them. Also, they focused more upon online certification courses to be pursued by the students in order to enhance their core knowledge of the subject.

#### Recommendations for the students sitting for placements:

- Students must work on relevant projects, take up internships of short duration and spend time on increasing their knowledge base in the field of their interest, to become more industry ready as well as excel in their career.
- Considering finance and investment banking, students must pursue CFA and other courses in fintech.
- Training in resume building and presenting and communication skills is required.
