

CDF — The SSCBS chapter of Connecting Dreams Foundation

What We Do?

A community of dedicated youth with a shared objective to bring about sustainable and scalable change. We work along the lines of 17 Sustainable Development Goals (SDGs) as defined by the United Nations.

Key Achievements in 2022-23

Project Utsav:

Project Utsav was a meticulously planned endeavour centred around uplifting the lives of potters by delving deep into their challenges and crafting feasible solutions. Through thorough research and feasibility studies, we meticulously analyzed the nuances of their struggles, ranging from economic hardships to social marginalization. We aimed to not only understand the root causes but also to identify viable interventions that could bring about sustainable change. This involved extensive engagement with the potter's community, gaining insights into their needs, aspirations, and the obstacles they faced.

Key Events in 2022-23:

Community

visit:

The community visit under Project Utsav was a purposeful endeavour aimed at understanding and addressing the challenges faced by potters. Through meticulous planning and extensive engagement, we delved into the nuances of their struggles, from economic hardships to social marginalization. Our goal was to identify practical solutions for sustainable change by listening to the needs and aspirations of the potter's community firsthand. This visit marked a crucial step in our commitment to empowering potters and fostering positive transformation in their lives.
