

CDF — The SSCBS chapter of Connecting Dreams Foundation

What We Do?

A community of dedicated youth with a shared objective to bring about sustainable and scalable change. We work along the lines of 17 Sustainable Development Goals (SDGs) as defined by the United Nations.

Key Achievements in 2023-24

Live project with Child Rights and You:

The Live Project with CRY was a concerted effort to address the growing concern about cybersecurity among students in government schools. Through a series of interactive workshops, we engaged with over 500 students across multiple schools, empowering them with essential knowledge and skills to navigate the digital landscape safely. The workshops covered topics such as identifying cyber threats, protecting personal information online, and responding to cyber incidents. The project not only fostered digital literacy but also instilled a sense of responsibility among students to safeguard themselves and their peers against online threats, contributing to the overall well-being of the community.

Project Utsav

This is our ongoing project aimed at improving lives and eliminating the problems faced by the potter's community. We have already collaborated with the canteen, the amul booth on campus, and nearby cafes. CDF SSCBS is looking forward to providing support to the potter community by providing them with income opportunities. We would engage with them, get beautiful and customized pots and cups, and then support them in selling them through online and offline channels.

Key Events in 2023-24:

Speaker session with Mr Vikas Dhar under VITI'23 –

Mr. Dhar shared his entrepreneurial journey, highlighting the challenges faced and lessons learned. Additionally, he discussed the intricacies of bank insurance, emphasizing its significance in today's financial landscape. His session sparked engaging discussions, inspiring attendees to explore new business and finance avenues. Through compelling storytelling and practical advice, Mr. Dhar motivated the audience to pursue entrepreneurial ambitions with confidence. The speaker session under Viti facilitated knowledge exchange and inspiration, enhancing the academic experience for students and faculty.

Local NGO Visits -

The Local NGO Visit was a deeply enriching experience that allowed volunteers to connect with the community and make a meaningful impact on the lives of children. Stepping into the NGO, volunteers brought with them a sense of purpose and compassion, ready to uplift the spirits of the children and offer them valuable opportunities for growth and learning. Through engaging activities and hands-on sessions, such as teaching basic computer skills using programs like MS Paint, volunteers created a supportive and nurturing environment where children could explore their creativity and develop new skills.

Cleanliness drive:

In conjunction with our commitment to educational outreach, we envision organising periodic speaker sessions featuring experts from various fields. These sessions would provide the students under your care with exposure to diverse career paths and valuable insights into different professions.

Upcoming Events in 2024-25:

**Changemakers Cup:**

Introducing the Changemakers Cup, a Business Plan Competition jointly organized by the Connecting Dreams Foundation and SSCBS. This esteemed competition provides a platform for aspiring entrepreneurs to transform their business ideas into reality. Beyond mere profit generation, the Changemakers Cup emphasizes the use of entrepreneurial action to empower individuals and communities sustainably. Through a series of structured workshops focusing on entrepreneurial skills development and invaluable feedback from industry experts, participants are equipped with the tools needed to convert dreams into actionable plans.
