

Sensitisation session with students of SSLT Gujarat Public School

Mode : Offline

Date: 17 February

Number of participant: 300-400

In our ongoing efforts to raise awareness about the significant problem of paper waste, Enactus SSCBS organized a sensitization session at SSLT Gujarat School. We were thrilled to see a massive turnout of over 300 enthusiastic students. Schools play a big part in generating paper waste, and it's crucial to educate students about this issue. Our goal with this session was simple: to spread awareness and inspire positive action among the youth.

We conducted an informative skit to engage children in a fun and educational manner, aiming to spread awareness effectively. Additionally, we organized a quiz game and rewarded the winners to further enhance their learning experience. In conclusion, our efforts at Enactus SSCBS strive to ignite a sense of responsibility and action among today's youth towards addressing the challenge of paper waste.
