

School Name: Bal Bharti Public School

Date and Day: 17-02-2025, Monday

No of Students: 150-200

Introduction

Enactus SSCBS, as part of its initiative **Project Kaagazi**, conducted an educational workshop on paper waste management at Bal Bharti Public School, Pitampura. The workshop primarily aimed to educate students on the significance of paper recycling, highlighting the substantial environmental impact of small, conscious actions. By inspiring responsible paper disposal and recycling habits, the session encouraged students to adopt sustainable practices in their daily lives.

Workshop Overview

The workshop was structured to provide a comprehensive understanding of paper waste management through interactive discussions, activities, and visual presentations. The session was divided into the following key segments:

1. Interactive Discussion on Paper Waste

The workshop began with an informative discussion on the environmental hazards caused by excessive paper usage and improper disposal. Students were made aware of the detrimental effects of paper waste on ecosystems and the importance of recycling in mitigating these impacts.

2. Introduction to Project Kaagazi

The team elaborated on the working model of Project Kaagazi, highlighting its collaboration with Green-O-Tech, a recycling company that processes paper waste. Students were also informed about the NGO partner that repurposes recycled paper into eco-friendly notebooks. These notebooks are creatively designed and sold at college festivals across the University of Delhi and other platforms, promoting sustainability and creativity.

3. Skit Presentation

To make the session more engaging, the team performed a skit that depicted the consequences of paper waste mismanagement and the benefits of effective recycling methods. The skit served as a visual and interactive tool to reinforce the importance of responsible waste management.

4. Interactive Activities

Students actively participated in riddles, quizzes, and a logo-based game designed to test and enhance their understanding of paper waste management. These activities made the learning process enjoyable and memorable.

5. Screening of Enactus Nationals Video

A video showcasing Project Kaagazi's journey and achievements at the previous year's Enactus Nationals was screened. The video highlighted the project's impact and success in promoting sustainability, providing students with a deeper understanding of its real-world applications.

6. Q&A Session

The workshop concluded with an interactive question-and-answer session, where students enthusiastically asked questions and sought clarifications on paper waste management and sustainability practices. This segment allowed for a deeper engagement and addressed any queries the students had.

Outcome and Impact

The workshop successfully achieved its objectives by:

- Educating students on the environmental hazards of paper waste.
- Demonstrating the practical applications of recycling through Project Kaagazi's model.
- Inspiring students to adopt sustainable practices in their daily lives.

The session left a lasting impression on the students, motivating them to become proactive agents of change in their communities. The interactive nature of the workshop ensured that the students not only gained knowledge but also felt empowered to take actionable steps toward environmental conservation.

The paper waste management workshop conducted by Enactus SSCBS under Project Kaagazi was a resounding success. It effectively combined education, engagement, and inspiration to foster a sense of responsibility among students toward sustainable practices. Enactus SSCBS remains committed to driving such initiatives that promote environmental awareness and

contribute to a greener future
