Record of Excellence

05 THE BfE LEGACY

Where Our Members Landed

Bridges for Enterprise (BfE) is a **global student-led nonprofit organization** dedicated to supporting early-stage social enterprises and impact-driven ventures. Through **pro bono consulting**, mentorship, capacity-building, and access to funding opportunities, BfE helps entrepreneurs develop **sustainable solutions** to social and environmental challenges. At the same time, it provides students with hands-on consulting experience, leadership opportunities, and a platform to create **meaningful impact** within their communities.

6

Connected chapters
across the globe

90+

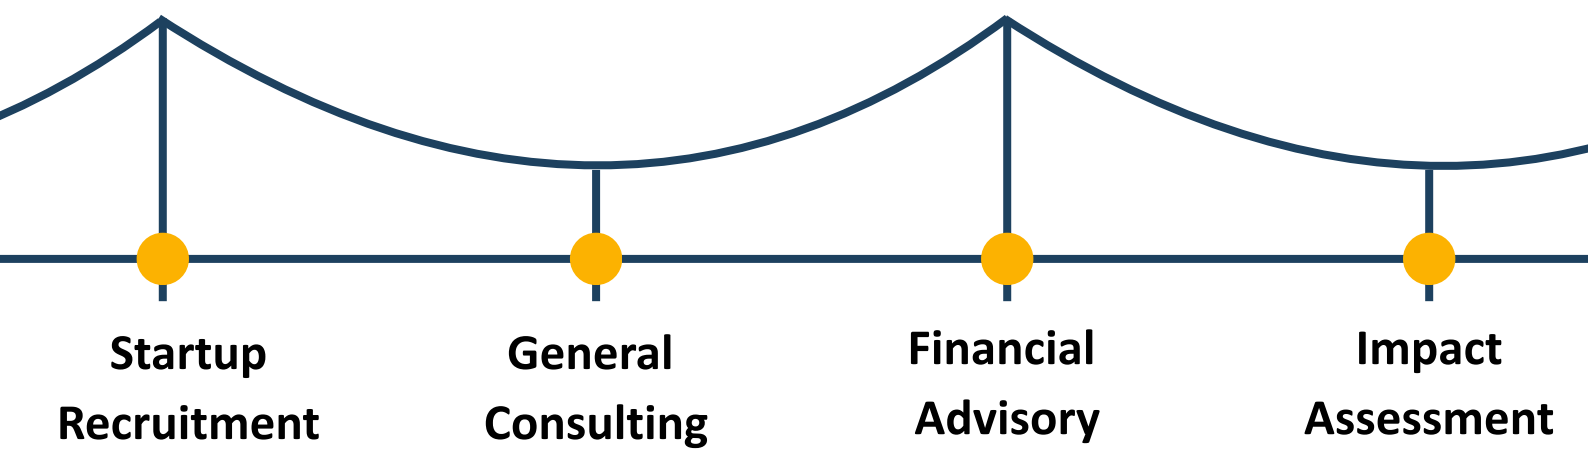

Live projects from
40+ countries

300+

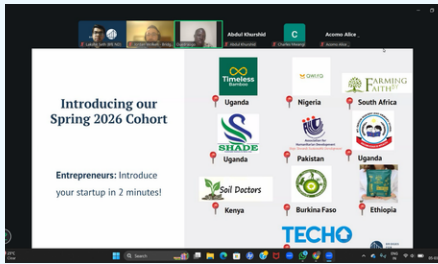

Industry mentors in
the BfE network

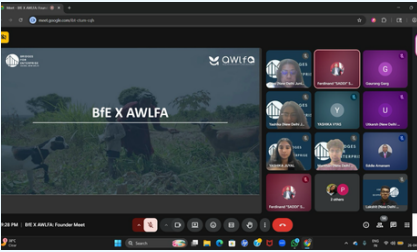

BfE New Delhi

At **BfE New Delhi**, we combine consulting, leadership, and social impact to create meaningful learning experiences for our members. Through **live projects** with social enterprises, **networking mixers**, **competitions**, **casebook** and **knowledge-sharing initiatives**, we develop future consultants while helping organizations tackle critical business challenges.

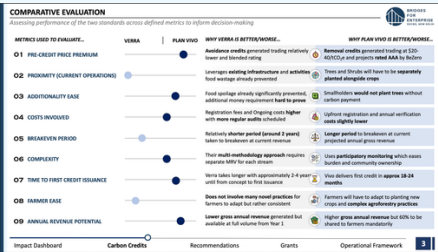

Startup Recruitment at BfE is responsible for evaluating startups applying to BfE Global. The team **conducts founder interviews**, assesses each venture’s potential and fit, and **shortlists startups** for the consulting program based on their needs, impact, and growth opportunities.

The General Consulting vertical at BfE works closely with shortlisted startups to address their key business challenges. The team collaborates with founders to **develop practical, tailored strategies** that help them achieve their goals and drive sustainable growth.

The Impact Assessment vertical at BfE evaluates the effectiveness of consulting support by connecting with founders after strategy implementation. The team **gathers feedback, measures outcomes**, and assesses the impact of recommendations to understand their effectiveness and identify areas for improvement.

Financial Advisory at BfE provides support to startups in addressing their financial challenges. The team works closely with founders to **analyze financial concerns**, evaluate key metrics, and recommend practical solutions that **strengthen financial planning** and support long-term sustainability.

UN SDG Action Summit Award

In 2025, Bridges for Enterprise New Delhi was honoured with the **Global Icons of Change Award** at the **UN SDG Action Summit**, becoming the **only student-run organization** to receive this prestigious recognition. The award celebrates organizations driving measurable progress towards the **United Nations Sustainable Development Goals** through innovation, sustainability, and lasting social impact. The recognition highlights the chapter's work in supporting mission-driven ventures across emerging markets through **strategic consulting** and capacity-building initiatives.

This milestone reflects BfE New Delhi's commitment to delivering **high-quality** consulting support to social enterprises and impact-driven startups **worldwide**. Through strategic advisory, market research, and capacity-building initiatives, the chapter has helped founders address real-world challenges while strengthening the **long-term sustainability** of their ventures. **BfE New Delhi** continues to create **meaningful global impact** while establishing itself as one of **SSCBS'** leading student organizations and a globally recognized force in **social innovation**.

01

DRIVING INVESTMENT READINESS AND GTM STRATEGY FOR BANTUBUMI

Bridges for Enterprise partnered with Bantubumi to strengthen investment readiness and unlock new revenue opportunities. The team developed diversification strategies, designed a USD 1M+ financing roadmap, and established impact measurement frameworks to support scalable and sustainable growth.

FOSTERING SUSTAINABLE GROWTH FOR BRILLIANT BRAINS

Bridges for Enterprise partnered with Brilliant Brains to develop sustainable growth strategies across digital education, infrastructure development, and community-led revenue generation. The team proposed solutions to strengthen financial sustainability and expand access to technology.

02

03

ACCELERATING FINANCIAL GROWTH AND LONG-TERM PLANNING FOR AWLFA

Bridges for Enterprise partnered with the Abuja Women Livestock Farmers Association (AWLFA) to design long-term strategies across funding and capacity building. The team recommended diversified financing pathways, decentralized training models, and strategic partnerships to strengthen financial resilience.

04

PIONEERING CLIMATE-RESILIENT GROWTH FOR TIMELESS BAMBOO

Bridges for Enterprise partnered with Timeless Bamboo to develop sustainable growth strategies across clean energy, business positioning, and funding readiness. The team proposed solutions to strengthen investment readiness, optimize operational scalability, and unlock climate-focused financing to support long-term growth.

STRENGTHENING THE IMPACT VERTICAL

This year, we took major steps to formalize and organize our impact vertical. Our Impact Assessment Team worked rigorously to evaluate the post-engagement success of the startups we had previously consulted, successfully piloting this with the onboarding of Nampya from our 2024 cohort. We plan to scale this and structure year-round, dedicated impact teams to handle an expanded portfolio of assessment projects, allowing us to drive continuous value and consistently publish comprehensive impact reports.

EMPOWERING SCALABLE IMPACT FOR NAMPYA FARMERS MARKET

As part of our impact measurement engagement, we partnered with Nampya Farmers Market to quantify greenhouse gas emission reductions and establish a robust carbon accounting framework to secure carbon credits. By establishing emissions baselines and impact metrics, we enabled Nampya to strengthen participation in carbon markets.

05
