Event Report 180DC SSCBS - Networking Mixer with SRCC

Date: 23rd January, 2026 Time: 10:00 a.m. to 5:00 p.m.

Event Overview:

With the objective of strengthening inter-chapter engagement and fostering a collaborative consulting ecosystem, 180 Degrees Consulting SSCBS successfully hosted a Networking Mixer in collaboration with the SRCC chapter of 180 Degrees Consulting. The event brought together driven and like-minded individuals from across Delhi University, united by a shared interest in problem-solving, strategic thinking, and social impact consulting.

The mixer was thoughtfully curated to facilitate meaningful interactions, encourage knowledge exchange, and build lasting connections across chapters through a blend of structured activities and open networking.

Session Highlights:

1. **Networking Bingo:**
   The event commenced with an interactive Networking Bingo session designed as an engaging icebreaker. Participants were encouraged to step beyond familiar circles, initiate conversations and discover shared interests through a series of curated prompts. The activity set an energetic tone for the evening, fostering ease, enthusiasm and active participation from the very beginning.
2. **Consulting Challenge:**
   Participants were then divided into cross-college teams and introduced to a dynamic consulting challenge. The activity incorporated elements of bidding and pitch proposal presentations, testing participants' analytical abilities, teamwork, strategic thinking and communication skills under time constraints. The diversity of perspectives across teams led to innovative solutions and engaging discussions, highlighting the strength of collaborative problem-solving.
3. **Open House Interactions:**
   The final segment of the mixer was dedicated to open-house interactions. This informal networking session allowed consultants to engage in in-depth conversations, share chapter experiences, discuss ongoing initiatives, and explore potential avenues for future collaboration and joint projects

Atmosphere and Engagement:

The event witnessed enthusiastic participation from both chapters, creating an environment marked by curiosity, energy and camaraderie. The seamless blend of structured activities and informal discussions enabled participants to form meaningful professional connections while fostering a sense of community within the broader 180DC network.

Conclusion:

The mixer underscored the importance of inter-chapter collaboration and the value of exchanging ideas within the 180 Degrees Consulting ecosystem. As one of the early in-person inter-chapter engagements of the season, the event successfully laid the groundwork for continued collaboration, mutual learning and collective growth.

Acknowledgments:

180DC SSCBS extends its sincere gratitude to 180DC SRCC for their collaboration and active participation, as well as to all members who contributed to the smooth execution and success of the event. We look forward to building upon this momentum through more such collaborative initiatives in the future.
