KARTAVYA EVENT REPORT

VIVANTÉ'26- ANNUAL PHILANTHROPIC FEST

Vivanté'26, the Annual Philanthropic Fest of Shaheed Sukhdev College of Business Studies, was organized by *Kartavya*, the Social Service Forum and NSS Unit of SSCBS, under the larger umbrella of *Crescendo*. The fest is a celebration of kindness, unity, and action, encouraging students to engage with social issues and contribute to positive change.

With a series of thoughtful initiatives and engaging events, Vivanté'26 aimed to inspire empathy, create awareness, and promote community-driven solutions. Two of the main events that stood out this year were the *Wishing Wall* and *Quest for Change*.

Wishing Wall

As part of Vivanté'26, the *Wishing Wall* initiative was organized on 23rd and 24th April 2026 on the SSCBS campus. This activity aimed to fulfill the small but meaningful wishes of underprivileged children from our partner NGOs Pankh and Nanhe Pakshi based in Sector 3, Rohini and Bavanagar, Keshav Puram respectively.

The wall displayed handwritten wishes from these children, ranging from simple needs to heartfelt dreams. Students, faculty members, and staff were invited to visit the wall, pick a wish, and help make it come true. The initiative served as a bridge between the college community and those in need, encouraging direct and impactful giving.

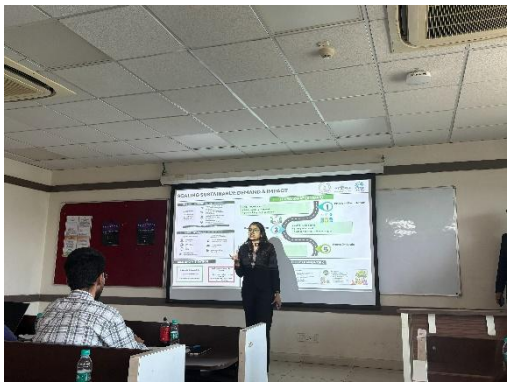

More than just an event, the Wishing Wall reminded everyone of the joy of giving and the difference a small act of kindness can make in someone's life.

Quest for Change – Social Case Competition

Quest for Change was a social case study competition where participants were asked to solve real-world or hypothetical social issues using creative and practical solutions. Held on April 23, 2026, at the SSCBS campus, the event encouraged critical thinking with a focus on social impact.

Shortlisted teams presented their ideas to an esteemed panel of judges:

- **Mr. Syed Faisal Mahmood**, Livelihood Programs
- **Mr. Vansh Tripathi**, Full Stack Developer

The competition showcased a wide range of thoughtful solutions, reflecting the participants' awareness, innovation, and sense of responsibility. It highlighted the importance of blending strategy with empathy to address today's pressing social challenges.
